

Oh no! Peter Cooper has forgotten his Self-Service (DTSS) password, and can't figure out what his classes are for the day. All he knows is when the classes start, the six different professors, the 6 floors the classes are on, and the temperature of each classroom, but he doesn't know which matches up with what. Help him match everything up, or he'll have no way of knowing which notebooks to bring, or when he'll need to break out his winter jacket!

Print out this puzzle to solve.

CLUES

1. The 1st-floor class is 2 hours before the class with Prof. Backstrom.
2. Of the class with Dean Tehrani and the 80° F class, one is at 7PM and the other is on floor LL1.
3. The 1PM class is either on the 5th floor or the class with Prof. Lima.
4. The class with Prof. Yapijakis is 8 hours before the 30° F class.
5. The 10° C class isn't on the 5th floor.
6. The class with Prof. Lima is 4 hours before the 25° C class.
7. Of the class with Prof. Simson and the 80° F class, one is at 7PM and the other is on the 4th floor.
8. The 65° F class is either the class on the 8th floor, or the 7PM class.
9. The class with Prof. Simson is either the 11AM class or the 25° C class.

EXAMPLE

Ex. Harry ate a lemon.

With this information, the grid should be marked like so:

			TOM
			RICHARD
			HARRY
ORANGE			×
LEMON	×	×	○
LIME			×

	PROF. LIMA	PROF. SIMSON	PROF. BACKSTROM	PROF. YAPIKAKIS	DEAN TEHRANI	PROF. FONTAINE	LL2	LL1	1	4	5	8	30 F	10 C	65 F	25 C	80 F	30 C	
9 AM																			
11 AM																			
1 PM																			
3 PM																			
5 PM																			
7 PM																			
30 F																			
10 C																			
65 F																			
25 C																			
80 F																			
30 C																			
LL2																			
LL1																			
1																			
4																			
5																			
8																			

MARK THE GRID WITH
X AND **○**
 TO KEEP TRACK OF THE CLUES
